EIOPA REGULAR USE

SOLVENCY II – UPDATE

EIOPA REGULAR USE

1. OVERVIEW OF THE WORK ON SOLVENCY II INSTRUMENTS (1)

- Amended Solvency II Directive mandates EIOPA to **develop 15 instruments** (draft RTS/ITS, guidelines and reports).
- EIOPA is also **reviewing 18 existing instruments** to ensure that they are up to date and not in conflict with amended legal framework.
 - ❖ Review aims to reduce number of existing guidelines that are relevant for the industry by 25%.
 - ❖ Review will also be used to significantly reduce the reporting burden for the industry: our consultation proposal includes a reduction of templates for solo entities by 26%.
- On 12 instruments the work is finalised. On other 18 instruments we published consultation proposals (or will do so in the next days).

2. OVERVIEW OF THE WORK ON SOLVENCY II INSTRUMENTS (2)

- **Level 2 deprioritisation:**

Three RTS/ITS on Solvency II are included in COM's deprioritisation proposal of L2 acts in financial services. While COM's approach to dealing with empowerments in upcoming legislative procedures is useful, some further clarifications might be needed with regard to some specific RTS.

- **Review of Solvency II Level 2:**

EIOPA provided **technical advice for the review of level 2** of Solvency II, in particular on the implementation of the new proportionality framework, capital requirements for direct exposures to central counterparties and capital requirements for crypto-assets.
