Consultation questions

Underwriting KPI

Q1. Do you agree that the proposed revisions improve the decision-usefulness of Taxonomy disclosures while reducing reporting burden for insurance undertakings?

Maximum 1 selection(s)

- ☒ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

Yes we agree that the proposed revisions could improve the decision-usefulness of Taxonomy disclosures while reducing the reporting burden for insurance undertakings.

Q2. Do you agree with renaming the current underwriting KPI to “Adaptation Underwriting KPI” to better reflect its scope?

Maximum 1 selection(s)

- ☒ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

We are of the view that renaming the current underwriting KPI to “Adaptation Underwriting KPI” could better reflect its scope and that it could therefore help stakeholders better understand how it relates to sustainability.

Q3. Do you support to keep the “split premium” approach for the Adaptation Underwriting KPI?

Maximum 1 selection(s)

☒ Yes

- ☐ No
- ☐ Partially
- ☐ Not applicable

Please provide reason

Yes we support to keep the “split premium” approach for the Adaptation Underwriting KPI.

Q4. Do you agree with the proposal to limit the denominator of the alignment and eligibility ratios to the 8 Eligible Lines of Business?

Maximum 1 selection(s)

- ☒ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Explain why

Yes we agree with the proposal to limit the denominator of the alignment and eligibility ratios to the 8 Eligible Lines of Business, hence those that cover natural catastrophe perils, as we are of the view that this would improve the relevance of the underwriting KPI. This “quick fix” would also be consistent with the amendments introduced by the Commission Delegated Regulation (EU) 2026/73 that excluded from the denominator loans or investments towards entities not required to report under CSRD for the calculation of the Investment KPI as well as for the Green Asset Ratio of credit institutions.

Q5. For the numerator of the eligibility ratio, do you agree with the proposed standardisation of determination of eligibility?

Maximum 1 selection(s)

- ☒ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Explain why

Yes we agree with the proposed standardisation of determination of eligibility in order to increase comparability across insurance companies in their reporting of eligibility. See also our response to Question Q3 with respect to the “split premium” approach.

Green Insured Activities KPI

Q.6 Do you support the introduction of a “Green Insured Activities KPI” measuring exposure to Taxonomy-aligned counterparties or assets?

Maximum 1 selection(s)

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please provide reasons for your answer.

Not answered

Q.6. If you selected yes:

Maximum 1 selection(s)

- ☐ a) Do you consider that the KPI should be applied on a voluntary or mandatory basis?
- ☐ b) Do you consider that the introduction of such a KPI should be deferred to the longer term?

Please provide reasons for your answer.

Q.7 Should this KPI complement or replace the current KPI over time?

Maximum 1 selection(s)

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

Not answered

Q.8 Do you support the methodology for the Green Insured Activities KPI?

Maximum 1 selection(s)

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

Not answered

If you selected "No", what alternative calculation approaches would work better to identify the Taxonomy-alignment of insured companies and objects?

Other simplifications

Q.9 Do you agree with simplifying the Investment KPI by removing the breakdowns for gas and nuclear activities?

Maximum 1 selection(s)

- ☒ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

We support simplifying the Investment KPI by removing the breakdowns for gas and nuclear activities as there seems to be no strong evidence that stakeholders consider such information to be useful in practice.

Q.10 Do you agree with removing the combined KPI (weighted average of underwriting and investment KPIs)?

Maximum 1 selection(s)

- ☒ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

We agree with removing the combined KPI introduced by the European Commission Notice C/2024/6691, which combines an investment KPI relating to balance sheet exposures with an underwriting KPI relating to turnover, as it is generally considered not relevant. We are of the view that stakeholders are likely to analyze alignment of an insurer's investment portfolio and underwriting activities separately, as different business activities, risk profiles and channels of environmental impact are involved.

Q.11 Do you support the introduction of an executive summary (dashboard) containing key Taxonomy and ESRS indicators in the Annual Report?

Maximum 1 selection(s)

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

Cross-sectoral Issues: Use of OpEx for the Investment KPI and group reporting

Use of OpEx

Q.12 Bearing in mind that OpEx is not included in the current disclosure template for insurance undertakings' Investment KPI, could the OpEx KPI of investee companies become relevant for voluntary reporting by insurance undertakings, in combination with the CapEx KPI?

Maximum 1 selection(s)

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

We are of the view that OpEx financing should not be explicitly incorporated in the methodology for calculating financial undertakings' KPIs.

Group reporting

Q13. The ESAs are proposing to remove the weighted average for group reporting. Do you agree that, in cases where a single KPI figure is required (such as for investment KPIs or investments made by financial products disclosed under SFDR), the KPI of the main business of the group should be used?

Maximum 1 selection(s)

- ☒ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain

We agree with the ESAs on the fact that the weighted average KPI introduced by the European Commission Notice C/2024/6691 is generally not relevant. And where a single KPI is required for the parent undertaking of a group, we agree that the KPI disclosed by the parent undertaking, reflecting the group's main or prevalent activity, should be used.

If not, what alternative methodology would you propose?

Q.14 Do you agree that computing group level KPIs for mixed groups as currently described in the FAQs of the Third Commission Notice poses challenges?

Maximum 1 selection(s)

☐

Yes

No

Not applicable

If not, please explain how the identified issues could be solved in practice.

Q.15 Do you have comments on the common principles based on which possible solutions have been developed by the ESAs?

- ☐ Yes
- ☐ No

Maximum 1 selection(s)

- ☐ Yes
- ☐ No
- ☐ Partially
- ☐ Not applicable

Please explain your views on the different criteria identified.

Not answered

Q19. What are your views on the types of disclosures which should be required for the other activities businesses?

Please explain.
