| Name of Company: | ING Group Data modelling team |  |
| Disclosure of comments: | Please indicate if your comments should be treated as confidential: | Public |
|  | Please follow the following instructions for filling in the template: <br> $\Rightarrow$ Do not change the numbering in the column "reference"; if you change numbering, your comment cannot be processed by our IT tool <br> $\Rightarrow$ Leave the last column empty. <br> $\Rightarrow$ Please fill in your comment in the relevant row. If you have no comment on a paragraph or a cell, keep the row empty. <br> $\Rightarrow$ Our IT tool does not allow processing of comments which do not refer to the specific numbers below. <br> - Certain rows represent a group of cells with similar information (ex : TP - E3- cells A17-A31-J16 for a given triangle in TP-E3) <br> - Cells that refer to formulas are not mentioned in specific rows; in case you have comments on formulas, please make them in the cell "general" for the given template <br> - In spreadsheets \& LOGs, certain cell number may seem like they are missing (ex : going directly from cell B1 to cell B3); this is normal, as they may refer to a previously existing cell that has been deleted during informal consultations, and cell numberings have not been changed for interal consistency purposes <br> - If your comment refers to multiple cells or paragraphs, please insert your comment at the first relevant paragraph and mention in your comment to which other cells or paragraphs this also applies. <br> - If your comment refers to subparagraphs or specific cells within a group, please indicate this in the comment itself. |  |
|  | Please send the completed template, in Word Format, to |  |

|  | cp009@eiopa.europa.eu. Our IT tool does not allow processing of any other formats. <br> The numbering of the paragraphs refers to this Consultation Paper, the numbering of cells refers to the accompanying spreadsheets and LOGs, the reference to "General", "Purpose", etc. refers to summary documents. |  |
| Reference | Comment |  |
| General Comment | Further to ING Groups comments as included in the CFO Forum and CEA comment templates, to which we fully subscribe we have some further comments and questions that arose when performing our data modelling exercise. As these comments are very detailed and mostly on a technical level we have decided to send these separately. <br> As we use these QRT templates as the prime input to build our data models, it would be helpful if change logs are provided with every future revision to the EIOPA QRTs. |  |

| Technical Annex (only for insconsistencies) |  |  |
| BS-C1 - General | Comment to cell A16: <br> The formula as stated in the template specifies that A20 (reinsurance receivables) should be included under this item (Reinsurance recoverables). However, this does not seem correct, especially since on the BS-C1D report Reinsurance recoverables and Reinsurance receivalbes are counted on separate lines (A5A and A6). If reinsurance receivables is included in Reinsurance recoverables this would lead to double counting of the Reinsurance receivables. Therefore we assume the formula for A16 should be excluding A20. <br> Comment to cell A28A: <br> - Presenting own funds as an assets seems not correct. <br> - It creates a difference with IFRS which treats this more correctly as correction on the Equity/ Own funds. <br> - There is no added value or insight gained from presenting this as a separate asset in BS-C1 as the required level of detail is already specified in OF-B1 which is a more proper place the achieve exactly the same. <br> - This unnecessarily increases complexity as the values displayed her are subsequently subtracted in OF-B1. <br> It is much more transparent to deal with these type of items within the context of the |  |

| :---: | :---: | :---: |
|  | capital/ own funds (OF-B1) <br> Comment to cell A28B: <br> - Similar to own funds an account is added which provides no relevant extra insight. <br> - Basically a part of the receivables is split of from the rest. <br> - The relevant information on called up capital is already provided in OF-B1 which is a more proper place as that actually discloses the called up capital and not the receivable as a result of that. <br> It is much more transparent to deal with these type of items within the context of the capital/ own funds (OF-B1) |  |

| BS-C1D - General | Total of Assets on C1D is not equal to total of Assets on C1, A28A (Own shares) and A28B (Amounts due in respect of own fund items or initial fund called up but not yet paid in for) are included in Total of Assets on C1 but not included in the total of assets for C1D. |  |

|  | Comments Template on Draft proposal for Quantitative Reporting Templates | Deadline <br> 20 January 2012 <br> 12:00 CET |
| :---: | :---: | :---: |
|  | Is this on purpose or should $\mathrm{BS}-\mathrm{C} 1: \mathrm{A} 28 \mathrm{~A}$ and $\mathrm{BS}-\mathrm{C} 1: \mathrm{A} 28 \mathrm{~B}$ shouldalso be included in the formula of BS-C1D:A7. |  |
| BS-C1D - Purpose |  |  |
| BS-C1D - Benefits |  |  |
| BS-C1D - Costs | See remark BS-C1D - Groups |  |
| BS-C1D - Groups | As Groups get reported in reporting currency (i.e. the currency of the currency where the subsidiary is established), it is assumed that Groups must report in the reporting currency of the subsidiairy here. Otherwise adjustment to Group consolidation systems will be substantitial and costly. |  |
| BS-C1D - Materiality |  |  |

| Country - K1- cell H2A |  |  |
| Country - K1- cell H3A |  |  |
| Cover - A1A \& Q- General | Usage of two different incompatible splits into LoB and Classes is significantly complicating matters and is not adding value to reporting. $\mathrm{H} 1=\mathrm{E} 1+\mathrm{F} 1-\mathrm{G} 1$ : Claims paid NET as defined here would be Claims paid gross - Reinsurance recoveries. However on the TP-E3 reports Claims paid net is defined as Claims paid gross Reinsurance recoveries - Salvage and subrogation. <br> So this amount would not be the same as the amounts reported on TP-E3 as net amount. Is this as intended? |  |

| OF - B1A \& B1Q - General | Reference to cells that are not in the template have been put in the general part of the comments. <br> Cell A1 in the template is called "Ordinary share capital (gross of own shares)". In the log file this cell is named "Ordinary share capital (net of own shares) - total". Should it be net or gross? The formula in B59 suggests gross is correct here. <br> A15A is two times in the Log file (once with the wrong colour - should be dark green). <br> B7 does not have a formula in the log file and has the wrong colour (should be light blue). |  |

## Comments Template on Draft proposal for Quantitative Reporting Templates

## Deadline

## 20 January 2012

12:00 CET
Lines 24, 35, 37, 65, 76, 77, 126, 127, 128, 175, 175, 176, 188, 189, 190, 209, 210, 211 are hidden in the template. It seems they should not be in the group template as they are only needed for solo undertakings (and not for groups). In that case, they should not be in the group template at all.

B28 is indicated as a calculation in the template (light blue colour). There is, however, no calculation in this cell. We interpreted the calculation as the sum of the two participation cells for financial and credit institutions (within group supervision scope and excluded from group supervision scope). These are cells from the grey block that is indicated as "Awaiting level 2".

Cell B27 is in the template equal to B118, however in the log the formula is B27=F93. The correct formula is in the template.

A34 does not contain the formula in the log file.
The log file entries for cells B43 and C43 should be C43 and D43 respectively. Additionally, the definition of these cells don't contain the calculation.

C44 and D44 do not contain a formula in the log file.
A45 is in the template indicated as a calculation, but the formula is neither in the template, nor in the log file. It should be: A45C=A45+A45A+A45B

C49 and D49 do not contain the formula in the log file.

The formula in the log file for C66 is not correct. It is now "C66-C64+C65". It should be "C66=C64+C65".

The formulas for A91, B91, C91 and D91 are not correct in the template and in the log file. The correct formulas should be: "A91=A88+A89+A90", "B91=B88+B89+B90", "C91=C88+C89+C90", "D91=D88+D89+D90"

| Comments Template on Draft proposal for Quantitative Reporting Templates |  | Deadline <br> 20 January 2012 <br> 12:00 CET |
| :---: | :---: | :---: |
|  | The formula for A95 in the template and in the log file is not correct. The correct formula is "A95=A92+A93+A94" <br> Cells A130.1-N130.1 are not mentioned in the log file <br> Cell C130.n is defined in the log file as a caclculation. In the template is should have a light blue colour. <br> Cells N130.n is incorrectly named N130.1 in the template. <br> Cells N103.n, D131-N131 are missing in the log file. <br> The definition of B49 in the log file mistakenly contains the definitions of B47. <br> The calculation of F117 seems incorrect. Shouldn't this be F117=sumF115.1:F115.n+F116? Now F116 is missing from the calculation. |  |

| OF - B1Q- cell A45 |  |  |
| OF - B1Q- cell A45A |  |  |
| OF - B1Q- cell A45B |  |  |
| VA - C2A- General | On this report a number of references to OF-B1(A) is made. Almost all references are not clear or seem to be incorrect <br> - Text on cell V1 "variation detailed in OF B1 = D60-A60" seems to be not correct. The assumption is that it should refer to cells A63 and D63. <br> - Text on cell V2 "variation detailed in OF B1 = D65-A65" seems to be not correct. The assumption is that it should refer to cells A72 and D72. <br> - Text on cell V3 "variation detailed in OF B1=(D71-A71)+(D75-A75)" is not clear to me. The assumption is that this should be be D66-A66. <br> - Text on cell V4 "variation detailed in OF B1= to be added in OF-B1" seems to indicate a change to report B1A. Is that correct? <br> - Text on cell V5 "variation detailed in OF B1 = 'line 163 '" is not clear to me. The assumption is that E86-A86 should have been referred to. <br> - Text on cell V6 "variation detailed in OF B1='line 200'" is not clear to me. The assumption is that E105-A105 should have been referred to. <br> - Text on cell V6 "'=F83-A83 in OF-B1 (but gap)" is not correct. F83 does not exist. What gap is being referred to? Is this still a calculated cell (as indicated on the template?) <br> - Text on cell V8 "'=Var (B26 in OF-B1)" seems to be not correct. The assumption is that it should refer to cell B29. <br> - Text on cell V9 "'=Var (A13 in OF-B1)" seems to be not correct. The assumption is that it should refer to cell A15. <br> - Text on cell V10 "'=Var 21 (OF-B1)=Var L30 (BS-C1) - V12 (infra)" is not clear to me. What ' $21^{\prime}$ ' is being referred to? Cell L30 (BS-C1) does not exist. The assumption is that it should refer to cell A50. |  |

| SCR - B2A - cell B3 |  |  |
| SCR - B2A - cell A4 | According to log file, the value is equal to cell C10 on SCR B3D. But cell C10 on SCR B3D contains the net solvency capital requirment for SLT Health component only, it does not contain any component for Non SLT Health nor Health catastrophe risk. On the same line as A4, the cell B4 (gross solvency capital requirement) has both SLT, |  |

|  | Comments Template on Draft proposal for Quantitative Reporting Templates | Deadline <br> 20 January 2012 <br> 12:00 CET |
| :---: | :---: | :---: |
|  | NonSLT and catastrophe components included. This way the NSLT Health and Health catastrope risks are missing in the total net solvency capital requirement. |  |

| SCR - B3E- cell B15A |  |  |
| SCR - B3E- cell C15 |  |  |
| SCR - B3E- cell A16 | According to the Log file cell A16 on B3E is supposed to correspond to cell A41 on template B3F. Unfortunately this cell doesn't exist. This should be either cell A26(net) or C26(gross). |  |
| SCR - B3E- cell A17 |  |  |
| SCR - B3E- cell A18 |  |  |
| SCR - B3F - General | For NL catastrophe risk it is needed to report risks per region. <br> In the consultation: ECO-SLV-11-138_consolidated_draft_Level_2_measures-201100527. doc there are multiple lists for regions. |  |

|  | Comments Template on Draft proposal for Quantitative Reporting Templates | Deadline <br> 20 January 2012 <br> 12:00 CET |
| :---: | :---: | :---: |
|  | When you combine these lists to one region lists you find two different descriptions for FR. <br> NLUR6 states: FR French Republic1 <br> NLUR7 and NLUR8 state: FR French Republic1; Principality of Monaco <br> (1. except Guadeloupe, Martinique, the Collectivity of Saint Martin and Réunion) <br> We would like confirmation if they are actually the same and what description should be chosen. |  |

| TP - E3- General | We strongly disagree with the increase of requirements on triangle data from 10 to 15 years. <br> 1. in a number of EC countries legal requirements on storing historical data are limited to 7 years, therefore it can not be expected that data with this granularity is stored for 15 years. <br> 2. A system life cycle is approximately $7-10$ years, therefore it can not be expected that data with this granularity is stored for 15 years. <br> Please reconsider. <br> Where should the not-direct annuities stemming from non-life be reported, in TPE3 or TPF4? (Now, TPF4 explicitly excludes non-direct and TPE3 excludes annuities stemming from non-life) |  |

| TP - E3- cells A01 |  |  |
| TP - E3- cells A02 |  |  |
| TP - E3- cells A03: N |  |  |
| TP - E3- cells A04 | LOG file for report TPE3 says that when reporting LoB in total, reporting currency should be used, and when reporting for separate currencies, the original currency should be used. It also says, that „For the total of currencies (with or without further currency split), it is required to report in cell "currency" the ISO code of all the currencies included in the total." This could be confusing, see example: <br> Reporting currency is CZK, conversion rate is 25 CZK = 1 EUR, BE of claims provision for given LOB are 1000 EUR and fulfill the condition for reporting the currency separately. So the report will look like this: <br> Total: Currency - EUR <br> Value - 25000 (converted to reporting currency CZK) <br> Split by currencies: Currency - EUR <br> Value - 1000 (in original currency EUR) |  |
| TP - E3- cells A1-A15-J0 |  |  |

| TP - E7B- General | Log file states : <br> "Template shall be filled by the non-life insurer only for direct business." <br> 1) Our assumption is that his means that a Life insurer does not have to include this report, even if the Life insurer has Non-life/NSLT coverages.; Can you confirm this? <br> 2) If Non-life insurer has Life or SLT coverages should these be reported? (I.e. should this report contain only the Non Life LoB's or should it also include the Life LoB's when applicable). |  |

| Re - J1- cell A00 | To be confirmed : We assume the LoB category to be reported on reinsurance is the LoB of the underlying insurance risk. As the reinsurance reporting is from the viewpoint of the ceding undertaking, this would be the LoB of the insurance contract for which the risk is ceded. |  |

|  | Comments Template on Draft proposal for Quantitative Reporting Templates | Deadline <br> 20 January 2012 <br> 12:00 CET |
| :---: | :---: | :---: |
|  | Example: A reinsurance agreement between a Life insurer (the cedent) and a Reinsurer on an insurance coverage of type Life: Index linked and unit-linked. For the Ceding company this is reinsurance on the LoB Index linked and unit linked. The Reinsurer would look at the same contract from the point of view of the reinsurer and classify the contract as Accepted reinsurance, however as this report is based on the viewpoint of the ceding company the reported LoB will be Index-linked and unitlinked. <br> Same applies to cell TP-E7A - D1, Re - J1 - A01 and Re-J2-H1. |  |

| IGT3- cell F6 | According to general IGT document file, transaction amounts are to be reported in the |  |

|  | Comments Template on Draft proposal for Quantitative Reporting Templates | Deadline <br> 20 January 2012 <br> 12:00 CET |
| :---: | :---: | :---: |
|  | currency of the transaction. Assume this does not apply to the threshold value (i.e. threshold to be reported in the Reporting currency of the group). |  |
| IGT3- cell G6 |  |  |
| IGT3- cell H6 |  |  |
| IGT3- cell I6 | Remark1: <br> General remark on this report suggest that all transaction amounts are to be reported in the currency of the transaction. <br> 1) This results in a list with incomparable amounts, as the amounts will be specified in different currencies. That does not help in identifying major risks. <br> 2) Assume for reinsurance agreements this is the Currency of the treaty. Not clear if all amounts reported here are 'transaction amounts' and thus to be reported in the currency of the treaty. <br> Remark 2 Applies to cells I6, J6, L6, G6, H6: <br> Reported item names or definitions specifically refer to Reinsurance treaties. For example J6 Type of reinsurance treaty. <br> The report is not limited to reporting on Reinsurance treaty. What is to be reported on these items for facultative reinsurance? |  |
| IGT3- cell J6 | Type of reinsurance treaty value list provided in log file is different from the Type of reinsurance treaty value list on Re-J2 and IGT3. Re-J2 coding is more detailed. Is the difference intentional or will IGT3 align to Re-J2 coding? <br> Values gives specific codes for Reinsurance treaty, but for Facultative reinsurance would expect additional values (Proportional / Non proportional). |  |
