SUPERVISION

Failures and near misses in insurance

The report aims at enhancing supervisory knowledge on the prevention and management of insurance failures, based on the information contained in the EIOPA database, which comprises a sample of 219 affected insurance undertakings in 31 European countries, dating back from 1999 to 2020.

REPORT | 08 OCT 2021 |

STATISTICS

European Insurance Overview 2021

The Annual European Insurance Overview is published by EIOPA as an extension of its statistical services in order to provide an easy-to-use and accessible overview of the European (re)insurance sector. The report is based on annually reported Solvency II information. This ensures that the data has...

RISK-FREE RATE

Report on EIOPA's approach for the implementation of IBOR transitions

This report highlights EIOPA's policy approach for the implementation of Interbank Offered Rates (IBOR) transitions. This report includes a summary of the comments received by the stakeholders, the final methodology to perform the IBOR transitions, as well as the results of the information request...

REPORT | 30 SEP 2021 |

SUPERVISION

Criteria for the independence of supervisory authorities

The independence of supervisory authorities is crucial for the legitimacy and credibility of the supervisory process. For public bodies, independence and good governance are necessary to avoid possible conflicts of interest and to reduce the likelihood of undue external influence on supervisory...

SUSTAINABILITY | IMPACT UNDERWRITING

Report on non-life underwriting and pricing in light of climate change

The frequency and severity of natural catastrophes is expected to increase due to climate change. As underwriters of natural catastrophe risks, the (re)insurance sector can be particularly impacted by climate change. The increasing risk can lead to insurance coverage

becoming unaffordable for the...

REPORT | 08 JUL 2021 |

[SOLVENCY REQUIREMENTS](#) | [SUSTAINABILITY](#)

Methodological paper on potential inclusion of climate change in the Nat Cat standard formula

The frequency and severity of natural catastrophes is expected to increase due to climate change. To ensure continuing policyholder protection and stability of the insurance market, the Solvency Capital Requirements (SCR) for natural catastrophe underwriting risk should reflect the expected impact...

[STRESS TEST](#) | [FINANCIAL STABILITY](#)

Impact of EU-wide insurance stress tests on equity prices and systemic risk

Since the global financial crisis in 2007, stress tests have become standard tools for regulators and supervisors to assess the risks and vulnerabilities of financial sectors. To this end, the Insurance and Occupational Pensions Authority (EIOPA) regularly performs EU-wide insurance stress tests...

THEMATIC ARTICLE | 06 JUL 2021 |

[SUSTAINABILITY](#) | [FINANCIAL STABILITY](#)

Climate change, catastrophes and the macroeconomic benefits of insurance

This article considers the protective role that insurance can play in mitigating the negative macroeconomic and welfare impact of catastrophes, and the interplay between climate change and insurance coverage. The article first develops a theoretical model of insurance, climate change, catastrophes...
