

# EIOPA's InsurTech Insight Survey

SURVEY

CLOSING DATE:

12 Aug 2018

STATUS:

Closed

EIOPA is collecting the views of the insurance industry and those not directly active in the insurance value chain on InsurTech, technology-enabled innovation in insurance that could result in new business models, applications, processes or products with an associated material effect on the provision of insurance products and services.

The survey focuses in particular on licencing requirements, barriers to InsurTech and InsurTech facilitation.

The results will contribute to EIOPA's work on mapping of supervisory approaches to InsurTech with the aim to identify and report on best practices and identifying possible regulatory barriers to financial innovation.

The deadline for providing your comments to EIOPA has expired.

## Privacy and Confidentiality Statement

Contributions received will be published on EIOPA's public website unless you request otherwise in the respective field in the survey.

Your personal data (name and contact details) are collected exclusively for the administration purposes described in the Privacy Statement and only authorised EIOPA staff members will have access to them.

EIOPA, as a European Authority, will process any personal data in line with Regulation (EC) No 45/2001 on the protection of the individuals with regards to the processing of personal data by the Community institutions and bodies and on the free movement of such data. More information on data protection can be found in the privacy statement or under [Legal notice](#).
