(EU) No 2015/2450 - templates for the submission of information to the supervisory authorities

ARTICLE:

35

STATUS:

Final

DATE OF SUBMISSION

04 Aug 2016

Question

Should claims with 0 incurred losses (for example cases declined or withdrawn) to be included in the count as well?

EIOPA answer

The loss distribution profile non-life shows the distribution, in (predefined) brackets, of the claims incurred during the reporting year, therefore claims with 0 incurred losses should not be considered.
