

Supporting a common supervisory culture: Targeted training on insurance supervision

NEWS

DATE:

21 Oct 2020

EIOPA has launched a program of targeted training on insurance supervision for 17 national competent authorities.

The training will enhance supervisory capacity of insurance national competent authorities to reinforce high-quality and effective supervision, the protection of policyholders and beneficiaries and financial stability. The training will help to promote a common supervisory culture and enable experts and supervisors in national authorities to implement the necessary practices and tools to supervise the compliance with Solvency II requirements.

The training is carried out by EIOPA and funded by the European Union via the Structural Reform Support Programme and delivered in cooperation with the European Commission's Directorate-General for Structural Reform Support (DG

REFORM).
