

Sensitivity analysis of climate-change related transition risks

PUBLICATION

DATE:

15 Dec 2020

The report explores current holdings of corporate bonds and equity that can be related to key climate-policy relevant sectors such as fossil fuel extraction, carbon-intensive industries, vehicle production and the power sector. It also quantifies potential climate-change related transition risks and presents insights into possible impacts on these investments as economies transition away from fossil fuel-dependent energy production and carbon-intensive production.
