

# Artificial intelligence governance principles: towards ethical and trustworthy artificial intelligence in the European insurance sector

A report from EIOPA's Consultative Expert Group

PUBLICATION

DATE:

17 Jun 2021

The report builds on recent international and EU developments in the area of digitalisation and AI.

The report highlights the proliferation of AI in insurance. For instance, AI allows insurance companies to carry out more granular risk assessments and pricing practices, increasingly efficient claims management processes, and enables insurance companies to fight against fraud more effectively.
