## Question

How many CQS now? 6 CQS are referred in (EU) 2016/1799, 2019/2028 but 7 CQS are still referred in (EU) 2016/1800.

The effective date of (EU) 2019/2028 is 24/12/2019. Does it affect CQS calculation for 2019 Year-end Solvency II Reports? If not, when will it affect CQS calculation (e.g. 2020 Q1, 2020 Year end)?

## EIOPA answer

This question is rejected under the regulatory Q&A process as the answer can be found directly in the Implementing Technical Standards on reporting 2015/2450 (COMMISSION IMPLEMENTING REGULATION (EU) 2015/2450 of 2 December 2015 laying down implementing technical standards with regard to the templates for the submission of information to the supervisory authorities).
